

Hello fellow PDA members,

My name is George Khoury and I will be running for the director position on the PDA board. It is my hope that I will have the opportunity to serve once again on the board and assist our PDA team members by being another strong voice for our PDA members who have questions, concerns, or just want strong representation on important matters for our staff.

I have experience on our labor board negotiating team. I have taken trainings on progressive discipline and the Internal affairs process. I believe my knowledge and experience in the dept. may be helpful when speaking to command staff or when having those tough conversations. I understand to always find the right answer or defer to someone who has more knowledge on the topic or situation and never misrepresent the line. I'm always willing to learn and help. Please vote for me! Thank you!
